ADITYA PANDEY

adityapandey1609@gmail.com

Education

University School of Information, Communication & Technology (GGSIPU) *2025 – present*
Master of Computer Applications; CGPA: 8.98

Jagan Institute of Management Studies (GGSIPU) *2021 – 2024*
Bachelor of Computer Applications; CGPA: 9.17

Hansraj Smarak Sr. Sec. School (CBSE) *2020 – 2021*
XII; Percentage: 94.8%

Everest Public School (CBSE) *2018 – 2019*
XII; Percentage: 95%

Experience

USICT | Training & Placement Cell *2025 – present*
I am a Training & Placement coordinator at USICT, where my primary role is handling on-ground operational tasks.

JIMS | IT Kaleidoscope *2021 – 2024*
I have worked as in the content and design team for IT Kaleidoscope, the IT Newsletter of JIMS. My role included writing content for the newsletter, working on its designs, and making it typographically presentable.

Projects

Partially True | https://partially-true.vercel.app *React, Tailwind CSS*
Partially True is a browser-based game where the computer chooses a number and you must guess it within given tries. For each digit you enter, the computer tells you which digit is in the number, which digit is not in the number, and which digit is at the wrong position.

Evil Simon | https://evil-simon.vercel.app *React, CSS*
Evil Simon is a browser-based game which derives its inspiration from The Simon Says game and is a difficult version of it.

Health Elevator | https://www.youtube.com/watch?v=l5zPGm_0p40 *MERN, CSS*
Health Elevator is a website that helps the users to search for the nearby medical stores and set the reminders for medicines. Since most of the people actively use WhatsApp, all the reminders will be sent to your WhatsApp number.

Mini-Games | https://github.com/Aditya-Pandey-GH/G-12 *Python*
Mini-Games is a Command line Python project consisting of several fun mini-games and IQ games.

Achievements

- I have participated in and won several coding competitions such as *Code-It*.
- I have been an organizer of a national-level hackathon called *Code Kshetra*.
- I have been finalist for the *Smart India Hackathon (SIH) 2022*.
- I have won several hackathons including internal round of *SIH 2023* and *SIH 2026*, *Tech Sprint* by Google Developer Group (GDG) BPIT, and *Ace Hack 5.0*.
- I have also mentored and judged a hackathon called Algo Rush conducted at BPIT in February 2026.
- I have organized various technical events under TekQbe, the IT club of JIMS, such as *Code-It*, *Code Hunt* and even the inter-college technical fest called *Tech Jitters*.
- I have conducted a 'Milk Packet Collection & Recycling' drive at JIMS, Rohini Sector-5 and 3 in May 2022. The event was certified by Bajaj and many others.

Technical Skills

Programming Languages: Python, JavaScript (JS)
Technologies Known: MERN Stack (JS), Tailwind CSS
Database: MongoDB
