Education

University School of Information, Communication & Technology (GGSIPU) <i>Master of Computer Applications; CGPA: 8.98</i>	2025 – present
Jagan Institute of Management Studies (GGSIPU) <i>Bachelor of Computer Applications; CGPA: 9.17</i>	2021 – 2024
Hansraj Smarak Sr. Sec. School (CBSE) <i>XII; Percentage: 94.8%</i>	2020 – 2021
Everest Public School (CBSE) <i>XII; Percentage: 95%</i>	2018 – 2019

Experience

USICT Training & Placement Cell I am a Training & Placement coordinator at USICT, where my primary role is handling on-ground operational tasks.	2025 – present
JIMS IT Kaleidoscope I have worked as in the content and design team for IT Kaleidoscope, the IT Newsletter of JIMS. My role included writing content for the newsletter, working on its designs, and making it typographically presentable.	2021 – 2024

Projects

Partially True https://partially-true.vercel.app Partially True is a browser-based game where the computer chooses a number and you must guess it within given tries. For each digit you enter, the computer tells you which digit is in the number, which digit is not in the number, and which digit is at the wrong position.	React, Tailwind CSS
Evil Simon https://evil-simon.vercel.app Evil Simon is a browser-based game which derives its inspiration from The Simon Says game and is a difficult version of it.	React, CSS
Health Elevator https://www.youtube.com/watch?v=I5zPGm_0p40 Health Elevator is a website that helps the users to search for the nearby medical stores and set the reminders for medicines. Since most of the people actively use WhatsApp, all the reminders will be sent to your WhatsApp number.	MERN, CSS
Mini-Games https://github.com/Aditya-Pandey-GH/G-12 Mini-Games is a Command line Python project consisting of several fun mini-games and IQ games.	Python

Achievements

- I have participated in and won several coding competitions such as *Code-It*.
- I have been an organizer of a national-level hackathon called *Code Kshetra*.
- I have been finalist for the *Smart India Hackathon (SIH) 2022*.
- I have won several hackathons including internal round of *SIH 2023* and *SIH 2026*, *Tech Sprint* by Google Developer Group (GDG) BPIT, and *Ace Hack 5.0*.
- I have also mentored and judged a hackathon called *Algo Rush* conducted at BPIT in February 2026.
- I have organized various technical events under TekQbe, the IT club of JIMS, such as *Code-It*, *Code Hunt* and even the inter-college technical fest called *Tech Jitters*.

Technical Skills

Programming Languages: Python, JavaScript (JS)
Technologies Known: MERN Stack (JS), Tailwind CSS
Database: MongoDB
